Nigel Laycock Pigeons

The Laycock pigeons have been gaining quite a lot of attention across many areas in the UK, with his pigeons being in high demand by many fanciers.

Nigel's results over many years, in particular the past few years has seen him gain the attention of many, with many of those fortunate enough to obtain birds direct from Nigel now reaping the benefits of his astute selection and breeding of top line birds.

Nigel has left no stone unturned in his quest to obtain the very best from the top European fanciers, going direct to them to select those which today he has blended to form his own family of birds. Fanciers that he has purchased his base pigeons off include the likes of: Eric Limburg from Eric's top stock birds that include "**Black Opium**", the "**Slimmen Cock**" and "**Slimmen Hen**". Purchases have also been made direct from Jos Sootjen which has provided Nigel with many of his champions like his foundation Soontjen cock "**Gold Spot**" responsible for countless winners, not just for Nigel but for many lucky enough to have acquired birds directly related to this cock.

Other famous pigeons in the Laycock family include pigeons very closely bred to one of the most famous Janssen cocks the "**Mercx**". Top line pigeons from other famous fanciers i.e. Leo Van Rhijns, Piet Rislvink and Jan Grondelaar have also been acquired,

One of the current top Belgium fanciers who's birds are in high demand across the globe at this time are birds from **Eric Ceuleman** and as it is with Nigel he was quick to visit Eric and acquire birds direct off his best.

LMP Stud has been fortunate to acquire birds direct off some of Nigel's top pairs that include many of those listed above along with several of their offspring and we are now able to offer to Australian fanciers youngster direct off these birds.

Now is the time to get in on the ground floor and be the first to obtain this very special and successful bloodline. LPM stud is the only suppliers of the "Laycock" pigeons in Australia and we will be soon adding more to the ones we currently have as some real "crackers" will be arriving in the next import shipment.

Don't delay, as only a few pairs will be available for sale this breeding season.

For those wishing more information on Nigel and his results, just go to "Google" and type in Nigel Laycock, I feel sure you will be more than impressed.
